Be

part of the European Valve Event of the Year!

Don't miss your chance to join the leading international event for industrial valve technologies and flow control solutions!

Industrial Valve Summit is a vibrant event that brings together leading minds in the valve industry to exchange practical and applicable knowledge and to build meaningful connections through personal interaction.

Get ready to unlock a world of opportunities for your business by exhibiting at IVS

Industrial Valve Summit is the meeting place for professionals and decision makers involved in valve technologies and flow control solutions.

The event will connect you with EPC, managers, engineers and designers responsible for specifying, recommending, purchasing, servicing or distributing valves, actuators, controls and related products.

IVS is setting up delegations of **International Top Buyers and organizing B2B Meetings with operators and experts of the main Oil&Gas companies.**

At the same time we are creating strategic partners with the most important industry associations and governmental institutions such as European Commission, ICE Italian Trade Agency, UNIDO ITPO, Businessmed, ANIMA/AVR Association of Italian Valve Producers, BVAA, ESA, SPE Italian Section, APCE, AMPP Italy Chapter, and others to come.

Industrial Valve Summit 2024

Bader Al-Jarallah, Aramco

Saad Alshiha, Engineering Consultant

Francesco Apuzzo, Carrara - CHAIRMAN

Rob Bartlett, British Valve & Actuator Association

Ray Bojarczuk, Engineering Consultant

Trine Boyer, Vår Energi ASA

Carlo de Bernardi, ConocoPhillips

Claire Dwyer, Fluor Enterprises

Angeline Goh, Shell

Brian A. Lade, Syncrude Canada Ltd (formerly with)

Carlo Mapelli, POLIMI Assoc. Ital. Metallurgia

Ron Merrick, Fluor Enterprises (formerly with)

Roland Mittelhammer, SGL Carbon

Umberto Navarra, Technip Energies

Masayuki Ono, JGC

Ugo Ormezzano, SPE Italian Section

Gil Perez, Valve Consultant

Christian Reynes, Total E&P

Emmanuel Sauger, Cetim

Jannicke Schei Stornes, Equinor

Manfred Shaaf, Amtec

Nisar Syed, Aramco

Valeria Tirelli, Aidro

Thijs van Muster, MRC Global

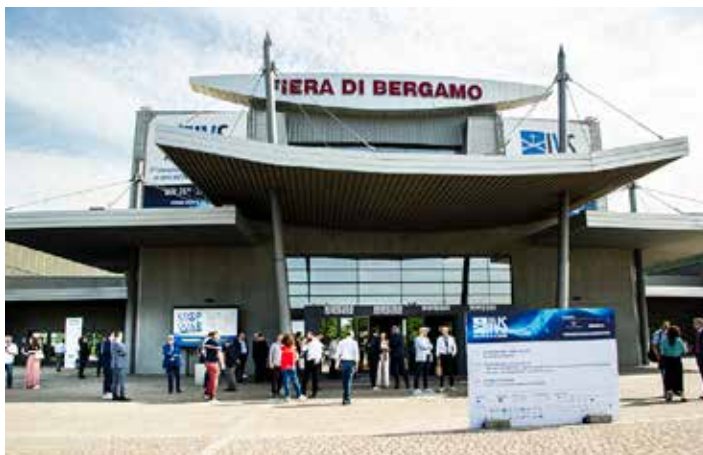

Ralf Vogel, European Sealing Association

Wojciech Zmudzinski, BP America Inc.

Scientific Committee

Industrial Valve Summit 2024 Scientific Committee is calling for presentations on diverse range of subjects related to valves, actuators, and the flow control sector.

Take your place among the industry's top players, join Industrial Valve Summit 2024!

Then you will not miss the opportunity for experts from all fields, including valve production, design, and application, to submit an abstract on a specific topic they would like to present during the conference.

Additionally, we welcome you to participate in one of our many technical sessions, where you can gain insights and knowledge from fellow industry professionals.

Are

Share your technical paper

you an expert in valve technologies and flow control solutions?

Are you eager to share your knowledge and insights with other professionals in the field?

Then you won't want to miss the opportunity to present a technical paper at the IVS Industrial Valve Summit 2024!

During one of the technical paper sessions, you'll have 20 minutes to present your ideas and 5 minutes to answer questions from the audience.

Our moderators will keep the time to ensure a smooth and efficient session, giving all speakers equal exposure and ample opportunity to share their expertise.

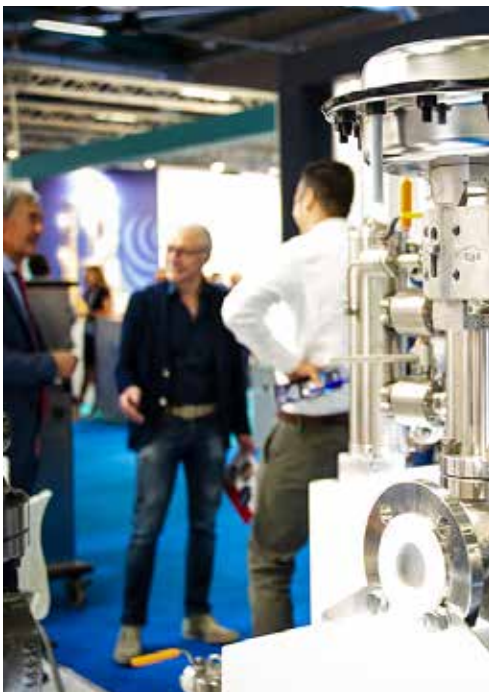

To participate, all you need to do is submit a 300–500-word abstract outlining the topic and content of your material.

This is your chance to showcase your ideas and contribute to the ongoing conversation about valve technologies and flow control solutions.

So don't wait any longer! Submit your abstract today and join us at the IVS Industrial Valve Summit to share your insights, connect with other professionals, and stay at the forefront of the valve industry!

Abstract deadline:

**NOVEMBER
10TH, 2023**

Presentation Topics

Industrial Valve Summit has carefully selected a set of hot topics for 2024 edition that we wish to showcase during the conference.

If your abstract aligns with any of these topics, it will significantly increase your chances of being selected to present at the Industrial Valve Summit!

- * Additive manufacturing
- * Digital technologies applied to valves, actuation and control
- * Sealing and Fugitive emissions
- * Valve design and materials for severe services
- * Standardization/Standards development
- * Supply chain management
- * AI applied to mechanical design, procurement and manufacturing
- * Energy transition, Carbon Capture Utilisation & Storage

Selection Criteria

Industrial Valve Summit 2024 Scientific Committee will evaluate technical Paper submission based on three main criteria.

- Firstly, the content must be of **high quality** and present information in a **neutral and informative** manner.
- Secondly, the technical paper should be **relevant and informative** to a **wide range of attendees from various industries.**
- Lastly, the IVS Industrial Valve Summit Scientific Committee is particularly interested in technical papers that **align with the conference's hot topics**, which will be heavily discussed and presented throughout the event. These selection criteria aim to ensure that the technical papers presented at the conference are both informative and engaging for all participants.

Please keep in mind that when submitting an abstract, you should:

- * Include your job function & company name
- * Include your name
- * Include e-mail address
- * Include title of the paper
